RE: Cultural Resources - Negative Findings for: TM 5364, Log No. 04-02-009 – Daniels  
Subdivision

Dear Dr. Mallios:

Please be advised that a survey has been conducted on the above referenced project. It has been determined that there are no cultural resources present on this property. The project has been plotted on the attached USGS 7.5 minute topographical map for your information.

County: San Diego

USGS 7.5' Quad: Bonsall Date: 1968 Section: -- Township: 9S Range: 3W

Address: 2045 Green Canyon Road  
City: Fallbrook State: CA

Thomas Brothers: 1028 6/A

Other Locational Data: The project is located in the Community Planning area of Fallbrook in an unincorporated portion of the County of San Diego

Assessor Parcel Number(s): 106-200-85

UTM: 0479700 mE/ 3690670 mN - taken from the center of the parcel at the existing residence using a Garmin GPS unit.

Elevation: 685' to 738'

Owner and Address: Geoffrey Daniels  
3135 Dusty Trail  
Olivenhain, CA 92024

Survey Type: Intensive Pedestrian  
Date of Survey: May 26, 2004  
Field Crew: Gail Wright

Description: The field survey was conducted using standard archaeological procedures and techniques. For the most part, continuous parallel transects (15 meters) were walked in a north/south direction between alternate rows of the citrus tree orchard. Survey conditions in these areas were good to fair, with some areas partially obscured by ground cover in the form of

grasslands. Most of the 11-acre project area consists of an active citrus orchard. An existing single-family residence with detached garage, guesthouse and residential landscaping covers approximately 1-½ acres and no survey was done in this area. The potential for prehistoric resources was low with no bedrock outcroppings, water source or oak trees (with the exception of one large oak close to the southeast boundary). In addition, the parcels have been cultivating citrus groves for many years and previously, strawberry fields. Activities of the resident rodent population provided sufficient soil disturbance to allow a sampling of the subsurface deposits. No artifacts or features were identified during this survey. This project proposes to subdivide 11 acres into ten 1-acre minimum residential parcels.

If you have any questions, please contact me at (858) 694-3003

Sincerely,

Gail Wright
